

Concerning the new coronavirus disease 【February 28, 2020 】

The new coronavirus disease has been found in Japan and other countries. When you contract the new coronavirus disease (COVID-19), you would become feverish or have a cough. COVID-19 is infectious through coughing and sneezing.

■ in order not to contract COVID-19, do the following matters.

- Wash your hands thoroughly with soap and disinfectant containing medicinal alcohol.

(After returning home, before cooking and before eating etc.)

- When you have a cough, wear a flu mask.
- If you are the elderly and have pre-existing conditions, avoid crowded areas.

■ If you become feverish, do not go to school or office.

■ The following person can make a phone call to a public health center (Coronavirus Consultation Center)※.

<time to make a phone call>

- When you have a cough and become feverish above 37.5°C and the symptoms last for 4 days

(In case of a weak constitution, when the symptoms last for 2 days)

- When you become terribly fatigued and breathe with difficulty

<the phone number of the center>

- from morning till evening on weekdays: call the center which is located where you live.

Refer to the following page to seek business hours and the number.

https://www.fukushihoken.metro.tokyo.lg.jp/hodo/saishin/kikoku_sess_hoku.html

- from 17:00 on weekdays till 9:00 on the next days: 03-5320-4592
- on Saturday, Sunday, and a national holiday: 03-5320-4592

<the thing that you talk with a person in charge>

- Talk about which hospital do you go for an examination.

※A public health center is a local government office which supports your health(vigor).

■When you consult a doctor, do the following matters.

- Wear a flu mask.
- Don't use public transportation such as a train or a bus.
